

## Caverion delivers technical solutions worth EUR 12 million for a new factory complex in Germany

Caverion Corporation Investor news, 25 January 2018 at 10.00 a.m. EET

### Caverion delivers technical solutions worth EUR 12 million for a new factory complex in Germany

Caverion has signed a contract with the general contractor Ed. Züblin AG to deliver technical solutions for a new factory complex of Leoni near the city of Nuremberg. Leoni is a leading European supplier of cables and cable systems for the automotive industry and other industries. The project includes the disciplines of Heating & Sanitation, Cooling, and Ventilation. The value of the contract is approximately EUR 12 million.

The new building complex will have a total surface area of 57,000 m<sup>2</sup> and will house a production site, a laboratory and development centre, and an administrative wing. In addition to the production of cables for the automotive industry as well as for telecommunications and infrastructure, Leoni intends to expand its research and development of state-of-the-art data lines for autonomous driving.

“We appreciate the many years of successful cooperation with Caverion,” says **Sven Sittig**, Team Leader Technical Building Equipment at Ed. Züblin AG. “In the past, we have already mastered large and time-critical construction projects together. That makes me optimistic for the upcoming project.”

“I am pleased that Caverion is part of this project and that we can further strengthen the partnership with our customer,” says **Werner Kühn**, Executive Vice President & CEO at Caverion Germany. “We understand the specific requirements of general contractors and provide them with the best possible financial, technical and operational solutions.”

Ed. Züblin AG belongs to Caverion’s General Contractors client segment. [Read more about our projects to General Contractors segment.](#)
